Transfer Pathways:

Students intending to transfer and complete a bachelor's degree need to make early decisions concerning an academic major and a transfer destination. Statistics show that students who make these decisions early are more likely to persist to graduation than their undecided counterparts. Students planning to transfer credits earned at Macomb are strongly urged to see a counselor or academic advisor as early as possible in their college careers.

1. Selecting a Different Catalog

[BACK TO TOP](#)

There may be more than one catalog available from the Macomb Community College system e-catalog Gateway at a time. If there is more than one, you will see a dropdown box toward the top of the page with the name of the current catalog. Clicking the dropdown box provides access to other available catalogs. Selecting an alternate catalog will load it into the Gateway. If you do not see the dropdown box, then only a single catalog is currently published.

You may add information from any of the available catalogs to your own personal Favorites. See below to learn more about [Using the Favorites Feature](#).

2. Searching the Catalog

[BACK TO TOP](#)

The Catalog Search (shown at the top of the navigation) allows quick retrieval of catalog content that matches your interests.

To use the Catalog Search, simply enter a search keyword or phrase and press ENTER. The search will find any matching content in the catalog including courses, programs, divisions, areas of study or other narrative content.

2.1. Search Options

[BACK TO TOP](#)

Search options are available by clicking on the Advanced Search link below the regular search form or by clicking the Modify Search Options link after performing a search. The search options offer more precise searching of the catalog content.

To limit your search to only specific types of catalog content, check only the checkboxes for content categories you wish to include in your search.

Check the "Whole Word/Phrase" check box to search for an exact match for a keyword or phrase. For instance, entering "bio" will only return hits in which the term "bio" stands alone; it will not return any instances of the term "biology". The same is true if you enter a phrase.

By clicking the Help  icon in the top right of any page, you are taken to a detailed description of the help topics shown there.
